Education

Dr APJ Abdul kalam Technical University

Sep. 2019 – July 2023

Bachelor of Technology in Computer Science and Engineering

Lucknow, UP

International Hindu School, CBSE

2016 – 2018

Intermediate

Varanasi, UP

Relevant Coursework

- Data Structures
- Computer Network
- Database Management
- AI/ML

Experience

Chegg India

April 2022 – Present

Subject Matter Expert of CS

Remote

- Expert in solving over 200 complex CS problems and assignments with precision.
- Applied advanced algorithms to crack intricate problems, showcasing deep CS knowledge.
- Consistently delivered high-quality solutions promptly, exceeding expectations in the dynamic CS field.

Oasis Infobyte

Nov 2023 – Dec 2023

Web Development and Designing

Remote

- Crafted dynamic websites with precision, implementing cutting-edge technologies for seamless user experiences and optimal functionality.
- Transformed concepts into visually stunning interfaces, blending creativity with user-centric design principles for impactful and intuitive web solutions.
- Successfully collaborated with diverse clients, translating their visions into reality through responsive design, ensuring satisfaction and exceeding project expectations.

Projects

MOVING CAR ANIMATION | - HTML, CSS, Javascript

January 2021

- Develop a responsive web page with HTML, CSS, and JavaScript to create a dynamic moving car animation, enhancing user engagement through interactive controls and realistic visual effects.
- Implement smooth transitions and real-time updates in the web-based car animation project, ensuring a visually appealing and immersive user experience with seamless integration of HTML, CSS, and JavaScript.

FOOD DELIVERY | Javascript, MongoDB, Express.js, React.js, Node.js

January 2023

- Develop an intuitive user interface with React.js for seamless web and mobile experiences, allowing users to browse, customize, pay, and track food orders in real-time.
- Create a robust server using Node.js and Express.js, integrating MongoDB for efficient data storage and retrieval.

REACT SOCIAL MEDIA DASHBOARD | React, Redux, RESTful APIs

June 2023

- A React-based social media dashboard offers a dynamic and intuitive user interface for managing social accounts.
- It integrates real-time analytics, scheduling, and engagement features, providing a comprehensive tool for effective social media management.

Technical Skills

Languages: Python, CPP, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, Pycharm

Technologies/Frameworks: Reactjs, GitHub, WordPress, Linux, Nodejs

Leadership / Extracurricular

- solved 500 plus problems on Leetcode and GFG.
- Got T-shirt and Bag on GFG.
- Streak for problem of the day for more than 100 days.
